Web Programming

Week 13

*"The limits of my language are
the limits of my world."*

Ludwig Wittgenstein

Tractatus Logico-Philosophicus

Retrospective

The codebase as ES6 modules

=> Your toolbox should use modules!

Deadline: Tuesday, January 5th
via mail with link to your repository

Agenda

Eleval Feedback, JS Goodie

Comparing Transpilers:

TypeScript, PureScript, Elm

Christmas Quiz

TS-PS-Elm

-> see extra presentation

Playground: try.purescript.org

PureScript function syntax

name   *quantifier*   *type variables*

signature   konst :: forall a b. a -> b -> a

definition   konst x y = x

args

Ideen

Proper types of

id, konst, True, False, Pair, fst, snd, ···

and all the other expressions in the lambda calculus.

Next

Extra lecture

- Refresher or

- More on PureScript
